

Join Us for the August 29 Drainage Field Day

On August 29, Missouri LICA members will gather in Albany, MO at the Hundley-Whaley Research Center in Albany, MO to help the University of Missouri College of Agriculture, Food and Natural Resources install a patterned drainage test plot. The event will begin at 9:00am and run into the early afternoon, including tours of the Center's research projects. The Hundley-Whaley Research Center is one of 16 around the state at which the University of Missouri College of Agriculture, Food and Natural Resources conducts research.

Missouri LICA will have a booth on site, promoting our members' services to area farmers. If you would like to help, meet some new customers, and see some of the agricultural research being conducted ... make plans to join us!

Driving Directions:

- ♦ Take Hwy. 136 to Albany
- ♦ In Albany take Hwy. 85 (also called North Hundley Street or Business Rt. 136) South to Bethany St.
- ♦ Go West on Bethany to Birch St.
- ♦ The farm is at the junction of Bethany and Birch.
